# McCHESNEY ENTERS RACE FOR GOVERNORSHIP

Stands for Constitutional Amendment Submitting to the People Vote on State-Wide Prohibition of Sale of Liquor.

#### Says it Must Be Determined Whether They or the Whiskey Interests S'all Rule Kentucky.

With the declaration in favor of Statewide prohibition of the manufacture and
sale of intoxicating liquor in the chief
plank in his platform, the Hon, H. V.
McChenney, of Frankfort, has announced
himself as a candidate for the Democratic nomination for Governor in the
State primary of next August.

Carreful and rigid inspection of all departments of the State government with this
purpose in view.

I congratulate the State on the great development in our public achool system in
rectant parts, and if elected I shall use
ever, enceyor to further advance the
cause of polic education. Having de-

State primary of next August.

Mr. McChesney declares that if nominated and elected, he will urge upon the General Assembly to submit to the people for their ratification an amendment to the Kentucky Constitution providing for Statewide prohibition. In the formal announcement of his candidacy, Mr. McChesney, who several years ago filled the offices of State Scherintendent of Public Instruction and Secretary of State, promises an abridgement of public expenditures where it can be properly done, and the further advancement of the present progress in educational and agricultural development.

His announcement is as follows:

To the Democratic voters of Kentucky: After mature deliberation I hav decided to enter the race for the Democratic nomination for the olice of Governor, in the primary to be held August 7, 1915. In making this announcement it is due those whose support I seek that I briefly outline the policies I advocate.

I am in favor of state wide prohibition of the manufacture and sale of intoxicating liquors. If no inated and elected I shall urge upon the Legislature of 1818 the passage of an Act denditing a propose on amenument of Constitution to people for their manufacture of the large amount of containing a propose of the constitution to people for their manufacture of the large amount of containing a propose for their manufacture.

bison in the Act giving a reasonable if the residual favor of the State put on a more efficient basic, and other educational progress made. At the coperative, in order that those ening the business may adjust their without too great a sacrifice.

In we no fault to find with the County it is a step in the right direction, and has been a great blessing to the Common-wealth. Under it becomises have voted in the total population of the State. The present law was case a member of the Board which built the new Capitot and was also a member of the Board which assessed all franchise taxes, which assessed in the great prosperity in the governmental franchise taxes, which assessed in the great prosperity in the governmental franchise taxes, which assessed in the great prosperity in the governmental franchise taxes, which assessed in the great prosperity in the governmental franchise taxes, which assessed in the great prosperity in the governmental franchise taxes, which assessed in the great prosperity in the governmental franchise taxes were very largely increased during that certain the following the franchise taxes were very largely increased during that certain the propose of most of these counties. In the propose of most of these counties have open for most of these counties and franchise taxes were very largely increased during that certain the great prosperity in the governmental franchise taxes were very largely increased during that certain the great prosperity in the great prosperi

until their influence has become a menace to popular government.

In view of all this it eeems that there is but one solution to the problem, and that is to submit it to the whole people that we may know once and for all time whether the people or the liquor interests are to rule in Kentucky. Not only is this the logic of the siluation, but if is absolutely fair. Who can be heard to say that the people as a whole haven't a right to pass on a question so vitally affecting their moral and financial welfare? We submit good reads amendments and taxation amendments to the whole peoplewhy not submit this question, infinitely more vital to them?

As stated above, I am not unmindful for the property interests involved. It is to be regretted that meral reforms often sing financial loss to some; but the public conscience justifies the loss to the few rhen itt means an infinitely greater eaving to the many. The onward march of Eristian civilisation must not be retarded ecouse a few men have invested their norms in the business constituting the betruction.

it this question, infinitely hem?

Previous to the few are reasonable to 1907) as superintendent of Livingston. He was re-elected to that office. Previous to county; Critisanden, where he was reasted; we bester and Livingston.

From County Superintendent of Livingston have a summer of the best taken. From County Superintendent in 1899, running on the Superintendent of the van reared; we be superintendent of t

I congratulate the State on the great development in our public achool system in recent years, and if elected I shall use ever, entervor to further advance the cause of polic education. Having revoted a large part of my life to the cause of the public schools, I am deeply interested in their continued growth.

The increased interest manifested over the State in improved methods of agricul-ture and in the construction of good roads is very gratifying. If elected I shall aid in every wa, possible in the furtherance of both of these great interests, so vital to the progress and welfare of the whole people.

I am in hearty sympathy with the progressive spirit which has marked the state's advance along many lines in recent years, and it shall be my ambition if elected to see this spirit yield a still greater fruitage in the agricultural, industrial and commercial development of the Commonwealth.

My record as Superintendent of Public Instruction and as Secretary of State is before the people for their judgment, and i shall enter into no detailed account of my services in these positions. The people of the State are more or less familiar with the record made, and I am willing to risk their judgment of my fitness for the office of Governor on that record.

During my term as Superintendent Public Instruction the State per cap was increased largely, the teaching for of the State put on a more efficient bas and other educational progress made.

to the control of the

Respectfully submitted
